ENGLISH

1. Vscan with probe
2. Docking station
3. USB 2.0 cable
4. Storage microSD card (Already installed in Vscan)
5. Battery
6. AC/DC converter & Adapter plugs
7. Quick card
8. Ultrasound gel
9. Soft case
10. CD-ROM Vscan gateway software
11. CD-ROM user manual
12. microSD card with factory SW
13. Global ultrasound support center phone number list

If no Internet access:
1) Call your local GE Service contact to get the activation key (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
2) Perform Vscan configuration and insert the activation key (see below).
3) Follow instructions provided by GE Service to activate Vscan and Vscan gateway.
4) Perform Vscan configuration (see below).

If you have Internet access:
2) Click on “Owners” then “Activation form”.
3) Fill in the form to retrieve the Vscan activation key.
4) Perform Vscan configuration and insert the activation key (see below).

Scenario 1
You have a computer with Internet access and you can install the software on the computer.
1) Install Vscan gateway software.
2) Dock Vscan and open the display.
3) Start Vscan gateway software (icon on desktop)
4) Call your local GE Service contact (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
5) Follow instructions provided by GE Service to activate Vscan and Vscan gateway.
6) Perform Vscan configuration (see below).

Scenario 2
You have a computer without Internet access but you can install the software on the computer.
1) Install Vscan gateway software.
2) Dock Vscan and open the display.
3) Start Vscan gateway software (icon on desktop)
4) Call your local GE Service contact (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
5) Follow instructions provided by GE Service to activate Vscan and Vscan gateway.
6) Perform Vscan configuration (see below).

Scenario 3
Vscan activation only when NOT installing the software.
1) Call your local GE Service contact to get the activation key (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
2) Perform Vscan configuration and insert the activation key (see below).
3) Fill in the form to retrieve the Vscan activation key.
4) Perform Vscan configuration and insert the activation key (see below).
5) Perform Vscan configuration (see below).

Follow one of the three scenarios below.

See “Online activation” in the user manual for more details.

See “Offline activation” in the user manual for more details.

See “Activation of the Vscan without Vscan gateway software” in the user manual for more details.

Hint:
- Use correction if correction is needed.

Scenario 3 only

1. Insert Activation key.
2. Mount
3. Select plug
4. Plug
5. Indicator lamp
- Amber: battery charging
- Green: battery fully charged
6. Charge completely before first use.

Check contents

1. Vscan with probe
