

VIBRATION TESTING/DYNAMIC SYSTEMS CONSULTANTS

GE furnishes this list of vendors as a convenience to our customers. GE has not substantiated the qualifications of these vendors. This responsibility remains with the customer and his selected architectural engineering firm. References should be solicited directly from the vendors. We will add any additional names as they are brought to our attention and if they agree to provide services that are in complete compliance with the GE Pre-Installation Manual (PIM).

Note: Customer must insist all vendors have committed to providing services that are in complete compliance with the Pre-Installation Manual (PIM). When vendors provide a quote, the quote must make reference to the PIM and not just the vendor's standard offerings. They should not purchase these services without this commitment. All vendors must visit the GE site planning web site and indicate that their vibration testing services are in compliance with the latest Pre-Installation Manual for their project.
